

Prof. Gaurisankar Sa

PhD, FNASc, FAScT

*Chair Professor of Molecular Medicine,
Controller of Examination,
& Executive Chairman
Centre for Translational Animal Research
Bose Institute, Kolkata, India*

Professor Gaurisankar Sa, Fellow of National Academy of Science, Fellow of West Bengal Academy of Science and Technology, received his Doctoral degrees in Biochemistry from University of Calcutta, in 1989. Then he joined Virginia Tech, USA as Visiting Faculty. Thereafter he moved to Cleveland Clinic, USA to work on cell signaling. In 1994 he joined Bose Institute, India where he is now working as a Professor and Chairman of Molecular Medicine, Executive Chairman, Centre for Translational Animal Research, Bose Institute, India. He is also a visiting professor of The Cleveland Clinic, USA.

Prof. Sa is the Editor-in-Chief of *International J Immunology*, Editor of *J Cancer Research & Molecular Medicine*, *Austin J. Clinical Immunology*, *Head & Face Medicine* and Editorial board member of no of Scientific Journals like *Int. J. Cancer Res.*, *J Pharmacology & Toxicology*, *Advances in Modern Oncology Research* etc.

Research work of Prof. Sa is focused in the area of, cancer biology and tumor immunology and understanding its molecular mechanisms. His work basically aimed at development of safe and non-toxic anti-cancer drug and development of adjuvant immunotherapy. His recent work also aims at understanding the mechanisms of immune-evasion of cancer so that immunotherapy can be reinforce into cancer patients. His findings are highly recognized by various National and International Scientific Communities as is evident from his more than 125 publications in high-impact journals, receiving various National/International awards, and granting number of patents.
