

Virgil Dalm

Address: Erasmus Medical Center

Country: The Netherlands

Academic education and degrees
(where, what and when)

20/07/2000 Doctoral Thesis
Erasmus University Rotterdam, Medical School
Preliminary studies on the expression and functional significance of somatostatin and its receptors in human macrophages

01/10/2003 PhD Thesis
Erasmus University Rotterdam
Somatostatin receptors and their ligands in the human immune system

18/03/2005 Medical Degree
Erasmus University Rotterdam, Medical School

01/05/2011 Registration Medical Specialist
Internist-clinical immunologist

Doctorate	PhD
University	Erasmus University Rotterdam
Date	01/10/2003
Supervisor(s)	Prof.dr. S.W.J. Lamberts, Prof.dr. P.M. van Hagen. Prof.dr. L.J. Hofland
Title of thesis	Somatostatin receptors and their ligands in the human immune system

Work experience and appointments since graduation (dates, full or part-time (fte) and permanent or fixed-term position)

04-2003 – 04-2005	Clinical Rotations, Erasmus MC, Medical School
04-2005 – 09-2005	Resident Intensive Care Medicine, Erasmus MC, 1.0 fte, fixed-term
09-2005 – 09-2007	Clinical Training Internist, Erasmus MC, 1.0 fte, fixed-term
09-2007 – 09-2009	Clinical Training Internist, MCRZ/MaasstadZiekenhuis, 1.0 fte, fixed-term
09-2009 – 05-2011	Clinical Training Internist/Fellowship Clinical Immunology, Erasmus MC, 1.0 fte, fixed-term
05-2011 – 05-2014	Internist-Clinical Immunologist, Erasmus MC, 1.0 fte, fixed terms (annual)
05-2014 – present	Internist-Clinical Immunologist, Erasmus MC, 1.0 fte, permanent position

1. Research

Recent research has focused on 2 topics: 1) fibrotic disorders and 2) primary immunodeficiencies.

- 1) Fibrotic disorders: Main goal is to find novel treatments for these disorders with limited therapeutic options. Diseases of interest include Graves' orbitopathy and systemic sclerosis, in which advances have been made with use of tyrosine kinase inhibitors to treat therapy-resistant Graves' orbitopathy. In current (clinical) studies the effects of tyrosine kinase inhibitors in systemic sclerosis and Graves' orbitopathy are under investigation. Other potential novel drugs for fibrotic disorders that are under current investigation include PPAR-gamma agonists.
- 2) Primary immunodeficiencies (PIDs): Research in PID has focused on determining non-infectious complications in PID patients, including skin, endocrine and psychiatric disorders, proving that also non-immunological features are part of PIDs. Moreover, PIDs as part of syndromic disorders including Jacobsen syndrome and Netherton syndrome have been identified and current area of interest includes identifying novel genetic defects leading to PID, which might be candidates for gene-targeted therapy in PID patients. Several new genetic defects have been identified and are under current evaluation. This has resulted in clinical introduction of novel therapeutic options.

Thesis supervised

as 'Co-promotor'

Grant allocation (year/size(€))

Principal investigator

2nd budget source ¹ European Commission, Horizon 2020, Moodstratification
 Total funding Erasmus MC € 1086750
 Principal Investigator / Coordinator Workpackage II: €300000

Other external funding² Novartis, Pasireotide in treatment of granulomatous disorders, 2015, €37000
 Baxter, Granulomatous complications in primary antibody deficiencies, 2015, €150000
 Griffols, Primary immunodeficiency in Jacobsen syndrome, 2014, €15000
 Actelion, Novel diagnostic approaches and markers for follow-up in systemic sclerosis, 2013, €100000

Co-investigator

2nd budget source ZONMW, Whole Genome Sequencing for cost-effective diagnostic evaluation of patients with Primary Immunodeficiencies
 Total funding € 600000
 Coordinator / Co-investigator Erasmus MC €175000

Other external funding CSL Behring, Open comparative controlled study of Hizentra therapy in patients with Myotonic Dystrophy type I with and without hypogammaglobulinaemia, 2013, €160000

¹ Definition second budget source Erasmus MC: NWO, ZonMw, NGI, 1e ronde BSIK, KNAW, EU, NIH and HFSP.

² Other external funding like industry, government, funds and charities

International research visits

Annual short term research visits to Chulalongkorn University, Bangkok, Thailand (Memorandum of Understanding with Erasmus MC) for collaborations on research projects (PhD students)

2. Teaching

Brief summary of teaching over the last five years (max. 200 words)

Medical School, Erasmus University Rotterdam/Erasmus MC

Bachelor & Master

Year 1 and 2 of Bachelor in Medicine (clinical reasoning, lecturing, Minors in Internal Medicine, Immunology, Gynaecology, Pulmonology) and Master in Medicine (clinical reasoning, E-learnings)

Internships Internal Medicine and Clinical Immunology

Winter and Summer course Master Infections and Immunity

Residents

Institutional, regional and national teaching of residents (internal medicine, gynaecology, pulmonology, dermatology)

(Medical) specialists

Regional and national teaching of general physicians, internists, rheumatologists, ENT-doctors, pulmonologists, dermatologists

National teaching of medical immunologists, technicians in training

Medical Delta

Year 1 of Bachelor Clinical Technology (lecturing)

Managing/coordinating courses/programmes (course, target group, ECTS, dates)

Minor Bachelor 2nd Year Erasmus University Rotterdam Medical School: Evil Paradise (Immunology), annually Dec-Jan, 4 ECTS (since 2012)

Minor Bachelor 2nd Year Erasmus University Rotterdam Medical School: Primary Immunodeficiencies (Immunology), annually Dec-Jan, 4 ECTS (since 2012)

Minor Bachelor 2nd Year Erasmus University Rotterdam Medical School: Respiratory Infections (ACE Respiratory Infections), annually Dec-Jan, 4 ECTS (per 2018)

Biannual national symposium on immunodeficiency and infectious disease (2011, 2013, 2015), accredited 5 CME credits, target audience: medical specialists (pulmonology, paediatrics, internal medicine)

Annual national symposium on Allergy and Clinical Immunology (2013-2017), accredited 6 CME credits, target audience medical specialists (pulmonology, internal medicine, rheumatology)

Developing courses/programmes (course, target group, ECTS, dates)

Minor Bachelor 2nd Year Erasmus University Rotterdam Medical School: Respiratory Infections (ACE Respiratory Infections), annually Dec-Jan, 4 ECTS (per 2018)

Minor Bachelor 2nd Year Erasmus University Rotterdam Medical School: Evil Paradise (Immunology), annually Dec-Jan, 4 ECTS (since 2012)

E-learnings Internal Medicine, Immunology (Master Medical School Erasmus University Rotterdam, annually (since 2017)

Biannual national symposium on immunodeficiency and infectious disease (2011, 2013, 2015), accredited 5 CME credits, target audience: medical specialists (pulmonology, paediatrics, internal medicine)

Interactive workshops on Treatment of Primary Immunodeficiencies, program for international medical specialists (France, Spain)

Annual symposium : State of the Art in Immune-mediated diseases (2016, 2017), accredited 3 CME points, target audience (dermatology, rheumatology, internal medicine)

Lecturing (course, target group, ECTS, dates) last 5 years

08-03-2012	Somatostatin analogues in immune mediated diseases 2 nd symposium on nerve-driven immunity, Vienna, Austria

Basic teaching qualification (BKO)³

Pending, expected to finish early 2018 (all obligatory duties have been fulfilled, finishing portfolio)

3. Training

Courses (max. 200 words)

As part of registration as internist-clinical immunologist, many trainings have been followed in order to improve clinical practice, maintain up-to-date knowledge and improve on collaborations. As part of the Basic Teaching Qualification various trainings have been followed to improve on teaching skills. Appendix I shows an overview of (inter)national accredited courses over the past 6 years (since registration).

4. Patient Care

Patient care focusses on patients with immune-mediated diseases (3 outpatient clinics (2 on systemic disease and 1 on PID) a week and 1 grand round for the clinical department). Particular focus is on patients with primary immunodeficiencies.

Over the past 5 years the Primary Immunodeficiency Center of the Erasmus MC has become the largest center for PID patients in the Netherlands and at current 3 simultaneous outpatient clinics have been established (1 staff member, 1 fellow in clinical immunology and 1 nurse practitioner). Outpatient clinics are multi-disciplinary, in collaboration with departments of ENT and pulmonary medicine.

The Primary Immunodeficiency Center has been approved as NFU Center of Expertise and member of the ERN Network RITA.

Because the center is a national referral center for PID, outpatient clinic care focusses on "efficiency in patient care".

A transition outpatient clinic was established in 2015 for patients from Sophia's Children Hospital who became adults and need transfer to adult outpatient clinics.

Consultancy for rare immune-mediated diseases in other hospitals (Franciscus Vlietland Groep, Medisch Centrum Haaglanden, Oogziekenhuis Rotterdam).

Annual meetings for patients are organized in the Erasmus MC.

5. Clinical Training

Registration internist-clinical immunologist in 2011. Clinical training in Erasmus MC and Maasstad Ziekenhuis, Rotterdam. Registration re-confirmed in 2016 (appendix I shows overview of trainings followed)

6. Management

Brief summary of management over the last five years (max. 200 words)

Management includes:

- Guidance of PhD students, which are affiliated to various departments (immunology, internal medicine and dermatology)
- Member of the financial committee of the department of internal medicine, Erasmus MC
- Involved in negotiation processes with pharmacy department and insurance companies on so-called "expensive drugs" (biologicals, small molecules, biosimilars)
- Establish multidisciplinary, clinical care-paths in Erasmus MC (primary immunodeficiencies and systemic sclerosis)
- Medical coordinator of immunology ward (2016)
- Structuring and organization ACE Primary Immunodeficiencies (now part of the ACE Rare Systemic Disease)
- Principal investigator in ACE Respiratory infections
- Structuring and organization of the Erasmus MC participation in ERN Networks RITA and RECONNET

³ (Compulsory) basic qualification for didactic competencies for all lecturers at Erasmus MC ('basis kwalificatie onderwijs'). For more information contact Marta Witkowska, bko@erasmusmc.nl, [website BKO](#).

- Principal coordinator for Erasmus MC in ERN RECONNET
- Sub-coordinator for Erasmus MC in ERN RITA

Size (fte) and composition own research group

Scientific personnel	2 fte PhD students
	0.4 fte technician
Other	4 PhD students employed in clinical departments (in clinical training/specialisation)

7. Memberships

Scientific committee (national and international)

Board membership	Dutch Biannual Meeting on Immunodeficiency and Infectious Diseases, 2011, 2013 and 2015 Annual State of the Art in Immune Mediated Disease meeting, 2016. 2017 Annual Meeting of the Dutch Society for Immunology, since 2017
Membership	Dutch Symposium on Allergy and Clinical Immunology

Editorial board

Editorship	Not applicable
Membership	Netherlands Journal of Medicine

Professional society and/or committee

Membership	European Society for Immunodeficiencies (ESID), from 2011 Dutch Society for Immunology (NVVI), from 2011 European Academy for Allergy and Clinical Immunology (EAACI), from 2011 EAACI Juniors Task Force, from 2017 Dutch Society for Internal Medicine (NIV), from 2005
Board member	Not applicable

8. Societal quality of own research⁴ (max three examples)

1. Website (www.afweercentrumrotterdam.nl) for patients, family members of patients and (referring) professionals in PID
2. Authorship of national medical standards (Bronchiectasis, 2017, in collaboration with NVALT (Dutch Society for Pulmonary Disease and Tuberculosis) and international medical standards (Systemic sclerosis, 2017, in collaboration with members of ERN RECONNET)
3. Relations with the national (SAS) and international (IPOPI) patient organizations; joint organization of educational activities for patients and professionals

9. Scholarships and prizes (research and education)

Not applicable

10. External consultancies (governmental/industry)

⁴ Erasmus MC has formulated 11 societal impact indicators: publications in Dutch journals, articles in newspapers & interviews on radio and television, websites for a wide audience, education based on results own research, books for professionals, authorships of policy documents and instruments, authorships of medical standards, granted patents, products implemented in the health care system/market, contribution to the employment of city/region Rotterdam and contact with stakeholders by networking and public-private cooperation.

Consultancies for industry (Actelion, Shire, Grifols, CSL Behring), focused on novel treatment options in primary immunodeficiencies and systemic sclerosis

11. Side positions

Not applicable

A Novel Heterozygous Mutation in the STAT1 SH2 Domain Causes Chronic Mucocutaneous Candidiasis, Atypically Diverse Infections, Autoimmunity, and Impaired Cytokine Regulation. Meesilpavikkai K, Dik WA, Schrijver B, Nagtzaam NM, van Rijswijk A, Driessen GJ, van der Spek PJ,

⁵ Man-years of research is the time you have been employed to do research since your doctorate. The man-years of research do not include the time you were appointed to perform management tasks, patient care or to teach of the time you needed for care responsibilities (parental, maternity or care leave).

⁶ H-index: a scholar with an index of h has published h papers each of which has been cited by others at least h times. Thus, the h-index reflects both the number of publications and the number of citations per publication. Calculate the index on <http://www.erasmusmc.nl/medbib/> quick link 'Web-of-Knowledge': select your publications and click on 'create citation report'. Specify the number of first and last authorships of the h-index. For more information: <http://www.erasmusmc.nl/medbib/publiceren/4465577/>

⁷ Calculate the score on www.erasmusmc.nl/medbib quick link Web-of-Knowledge: select your publications and click on 'create citation report'.

⁸ Include only manuscripts which have been accepted for publication. Indicate per publication: the ranking of the journal in the research field (quartile and top10%). If a journal fits into more than one research field, indicate only the highest quartile. Mark your own authorship per publication and your ten best publications.

***J Allergy Clin Immunol.* 2016 Dec;138(6):1681-1689 (Q1, top10%)**

Basic FGF and PDGF-BB synergistically stimulate hyaluronan and IL-6 production by orbital fibroblasts. Virakul S, Heutz JW, **Dalm VA**, Peeters RP, Paridaens D, van den Bosch WA, Hirankarn N, van Hagen PM, Dik WA.

Mol Cell Endocrinol. 2016 Sep 15;433:94-104 (Q1)

Histamine induces NF- κ B controlled cytokine secretion by orbital fibroblasts via histamine receptor type-1.

Virakul S, Phetsuksiri T, van Holten-Neelen C, Schrijver B, van Steensel L, **Dalm VA**, Paridaens D, van den Bosch WA, van Hagen PM, Dik WA.

Exp Eye Res. 2016 Jun;147:85-93. (Q1)

Both T, Zillikens MC, Hoorn EJ, Zietse R, van Laar JA, **Dalm VA**, van Duijn CM, Versnel MA, Maria NI, van Hagen PM, van Daele PL.

Calcif Tissue Int. 2016 Jun;98(6):573-9 (Q1)

Association of Increased Treg Cell Levels With Elevated Indoleamine 2,3-Dioxygenase Activity and an Imbalanced Kynurenine Pathway in Interferon-Positive Primary Sjögren's Syndrome.

Maria NI, van Helden-Meeuwsen CG, Brkic Z, Paulissen SM, Steenwijk EC, **Dalm VA**, van Daele PL, Martin van Hagen P, Kroese FG, van Roon JA, Harkin A, Dik WA, Drexhage HA, Lubberts E, Versnel MA.

Arthritis Rheumatol. 2016 Jul;68(7):1688-99 (Q1, top10%)

Systemic mastocytosis: A cohort study on clinical characteristics of 136 patients in a large tertiary centre.

Hermans MA, Rietveld MJ, van Laar JA, **Dalm VA**, Verburg M, Pasmans SG, Gerth van Wijk R, van Hagen PM, van Daele PL.

Eur J Intern Med. 2016 May;30:25-30. (Q2)

The 11q Terminal Deletion Disorder Jacobsen Syndrome is a Syndromic Primary Immunodeficiency.

Dalm VA, Driessen GJ, Barendregt BH, van Hagen PM, van der Burg M.

J Clin Immunol. 2015 Nov;35(8):761-8 (Q2)

The interferon type I signature is present in systemic sclerosis before overt fibrosis and might contribute to its pathogenesis through high BAFF gene expression and high collagen synthesis.

Brkic Z, van Bon L, Cossu M, van Helden-Meeuwsen CG, Vonk MC, Knaapen H, van den Berg W, **Dalm VA, Van Daele PL, Severino A, Maria NI, Guillen S, Dik WA, Beretta L, Versnel MA, Radstake T.**

***Ann Rheum Dis.* 2016 Aug;75(8):1567-73 (Q1, top10%)**

Somatostatin receptor scintigraphy patterns in patients with sarcoidosis.

Kamphuis LS, Kwekkeboom DJ, Missotten TO, Baarsma GS, **Dalm VA**, Dik WA, Timmermans WM, van Daele PL, van Hagen PM, van Laar JA.

Clin Nucl Med. 2015 Dec;40(12):925-9 (Q1)

Platelet-Derived Growth Factor-BB Enhances Adipogenesis in Orbital Fibroblasts.

Virakul S, **Dalm VA**, Paridaens D, van den Bosch WA, Mulder MT, Hirankarn N, van Hagen PM, Dik WA. *Invest Ophthalmol Vis Sci.* 2015 Aug;56(9):5457-64 (Q1, top 10%)

Prevalence of distal renal tubular acidosis in primary Sjögren's syndrome.

Both T, Hoorn EJ, Zietse R, van Laar JA, **Dalm VA**, Brkic Z, Versnel MA, van Hagen PM, van Daele PL.

Rheumatology (Oxford). 2015 May;54(5):933-9 (Q1)

Strategies for B-cell receptor repertoire analysis in primary immunodeficiencies: from severe combined immunodeficiency to common variable immunodeficiency.
IJspeert H, Wentink M, van Zessen D, Driessen GJ, **Dalm VA**, van Hagen MP, Pico-Knijnenburg I, Simons EJ, van Dongen JJ, Stubbs AP, van der Burg M.
Front Immunol. 2015 Apr 8;6:157 (Q1)

Primary immunodeficiencies in the Netherlands: national patient data demonstrate the increased risk of malignancy.
Jonkman-Berk BM, van den Berg JM, Ten Berge IJ, Bredius RG, Driessen GJ, **Dalm VA**, van Dissel JT, van Deuren M, Ellerbroek PM, van der Flier M, van Hagen PM, van Montfrans JM, Rutgers A, Schölvincq EH, de Vries E, van Beem RT, Kuijpers TW.
Clin Immunol. 2015 Feb;156(2):154-62 (Q1)

Platelet-derived growth factor: a key factor in the pathogenesis of graves' ophthalmopathy and potential target for treatment.
Virakul S, van Steensel L, **Dalm VA**, Paridaens D, van Hagen PM, Dik WA.
Eur Thyroid J. 2014 Dec;3(4):217-26 (Q1)

The tyrosine kinase inhibitor dasatinib effectively blocks PDGF-induced orbital fibroblast activation.
Virakul S, **Dalm VA**, Paridaens D, van den Bosch WA, Hirankarn N, van Hagen PM, Dik WA.
Graefes Arch Clin Exp Ophthalmol. 2014 Jul;52(7):1101-9 (Q1)

The medically immunocompromised adult traveler and pre-travel counseling: status quo 2014.
Asklung HH, **Dalm VA**.
Travel Med Infect Dis. 2014 May-Jun;12(3):219-28 (Q1)

Everything you need to know about distal renal tubular acidosis in autoimmune disease.
Both T, Zietse R, Hoorn EJ, van Hagen PM, **Dalm VA**, van Laar JA, van Daele PL.
Rheumatol Int. 2014 Aug;34(8):1037-45. (Q2)

T-helper 17 cell cytokines and interferon type I: partners in crime in systemic lupus erythematosus? Brkic Z, Corneth OB, van Helden-Meeuwssen CG, Dolhain RJ, Maria NI, Paulissen SM, Davelaar N, van Hamburg JP, van Daele PL, **Dalm VA**, van Hagen PM, Hazes JM, Versnel MA, Lubberts E.
Arthritis Res Ther. 2014 Mar 6;16(2):R62 (Q1, top 10%)

Clinical picture and treatment of 2212 patients with common variable immunodeficiency.
Gathmann B, Mahlaoui N; CEREDIH, Gérard L, Oksenhendler E, Warnatz K, Schulze I, Kindle G, Kuijpers TW; Dutch WID, van Beem RT, Guzman D, Workman S, Soler-Palacin P, De Gracia J, Witte T, Schmidt RE, Litzman J, Hlavackova E, Thon V, Borte M, Borte S, Kumararatne D, Feighery C, Longhurst H, Helbert M, Szaflarska A, Sediva A, Belohradsky BH, Jones A, Baumann U, Meyts I, Kutukculer N, Wågström P, Galal NM, Roesler J, Farmaki E, Zinovieva N, Ciznar P, Papadopoulou-Alataki E, Bienemann K, Velbri S, Panahloo Z, Grimbacher B; European Society for Immunodeficiencies Registry Working Party.
J Allergy Clin Immunol. 2014 Jul;134(1):116-26 (Q1, top10%)

MxA as a clinically applicable biomarker for identifying systemic interferon type I in primary Sjogren's syndrome. Maria NI, Brkic Z, Waris M, van Helden-Meeuwssen CG, Heezen K, van de Merwe JP, van Daele PL, **Dalm VA**, Drexhage HA, Versnel MA.
Ann Rheum Dis. 2014 Jun;73(6):1052-9 (Q1, top10%)

Common variable immunodeficiency and idiopathic primary hypogammaglobulinemia: two different conditions within the same disease spectrum.
Driessen GJ, Dalm VA, van Hagen PM, Grashoff HA, Hartwig NG, van Rossum AM, Warris A, de Vries E, Barendregt BH, Pico I, Posthumus S, van Zelm MC, van Dongen JJ, van der Burg M.
Haematologica. 2013 Oct;98(10):1617-23 (Q1, top 10%)

Efficacy of lenalidomide in refractory lupus pernio.
Dalm VA, van Hagen PM.
JAMA Dermatol. 2013 Apr;149(4):493-4 (Q1, top 10%)

Thymosin α 1: a novel therapeutic option for patients with refractory chronic purulent rhinosinusitis.
Dalm VA, de Wit H, Drexhage HA.
Ann N Y Acad Sci. 2012 Oct;1270:1-7 (Q1, top 10%)

Prevalence of interferon type I signature in CD14 monocytes of patients with Sjogren's syndrome and association with disease activity and BAFF gene expression.
Brkic Z, Maria NI, van Helden-Meeuwssen CG, van de Merwe JP, van Daele PL, **Dalm VA**, Wildenberg ME, Beumer W, Drexhage HA, Versnel MA.
Ann Rheum Dis. 2013 May;72(5):728-35 (Q1, top 10%)

The role of cortistatin in the human immune system. van Hagen PM, **Dalm VA**, Staal F, Hofland LJ. Mol Cell Endocrinol. 2008 May 14;286(1-2):141-7.
Future clinical prospects in somatostatin/cortistatin/somatostatin receptor field.
Dalm VA, Hofland LJ, Lamberts SW.

Mol Cell Endocrinol. 2008 May 14;286(1-2):262-77. (Q1)

Associations between promoter usage and alternative splicing of the glucocorticoid receptor gene.
Russcher H, **Dalm VA**, de Jong FH, Brinkmann AO, Hofland LJ, Lamberts SW, Koper JW.
J Mol Endocrinol. 2007 Feb;38(1-2):91-8. (Q1)

The role of somatostatin and somatostatin analogs in the pathophysiology of the human immune system.
Dalm VA, Hofland LJ, Ferone D, Croxen R, Lamberts SW, van Hagen PM.
J Endocrinol Invest. 2003;26(8 Suppl):94-102 (Q3)

Distribution pattern of somatostatin and cortistatin mRNA in human central and peripheral tissues.
Dalm VA, Van Hagen PM, de Krijger RR, Kros JM, Van Koetsveld PM, Van Der Lely AJ, Lamberts SW, Hofland LJ.
Clin Endocrinol (Oxf). 2004 May;60(5):625-9. (Q1)

Differential expression of somatostatin receptor subtypes in human peripheral blood mononuclear cell subsets.
Lichtenauer-Kaligis EG, **Dalm VA**, Oomen SP, Mooij DM, van Hagen PM, Lamberts SW, Hofland LJ.
Eur J Endocrinol. 2004 Apr;150(4):565-77 (Q1)

Somatostatin receptor distribution and function in immune system.
Ferone D, van Hagen PM, Semino C, **Dalm VA**, Barreca A, Colao A, Lamberts SW, Minuto F, Hofland LJ.
Dig Liver Dis. 2004 Feb;36 Suppl 1:S68-77 (Q2)

The role of octreotide scintigraphy in rheumatoid arthritis and sarcoidosis.
Dalm VA, van Hagen PM, Krenning EP.
Q J Nucl Med. 2003 Dec;47(4):270-8 (Q2)

Somatostatin receptors in malignant lymphomas: targets for radiotherapy?
Dalm VA, Hofland LJ, Mooy CM, Waaijers MA, van Koetsveld PM, Langerak AW, Staal FT, van der Lely AJ, Lamberts SW, van Hagen MP.
J Nucl Med. 2004 Jan;45(1):8-16 (Q1, top 10%)

Expression of somatostatin, cortistatin, and somatostatin receptors in human monocytes, macrophages, and dendritic cells.
Dalm VA, van Hagen PM, van Koetsveld PM, Achilefu S, Houtsmuller AB, Pols DH, van der Lely AJ, Lamberts SW, Hofland LJ.
Am J Physiol Endocrinol Metab. 2003 Aug;285(2):E344-53 (Q1, top 10%)

Cortistatin rather than somatostatin as a potential endogenous ligand for somatostatin receptors in the human immune system.
Dalm VA, van Hagen PM, van Koetsveld PM, Langerak AW, van der Lely AJ, Lamberts SW, Hofland LJ.
J Clin Endocrinol Metab. 2003 Jan;88(1):270-6. (Q1, top 10%)

Quantitative and functional expression of somatostatin receptor subtypes in human thymocytes.
Ferone D, Pivonello R, Van Hagen PM, **Dalm VA**, Lichtenauer-Kaligis EG, Waaijers M, Van Koetsveld PM, Mooy DM, Colao A, Minuto F, Lamberts SW, Hofland LJ.
Am J Physiol Endocrinol Metab. 2002 Nov;283(5):E1056-66. (Q1, top 10%)

Contribution to books

Jacobsen Syndrome with PID, Dalm VA, Encyclopedia of Medical Immunology, 2017
Humorale immunodeficiencies: kliniek en diagnostiek, Dalm VA, van der Burg M & van Hagen PM, Medische Immunologie, 2016
Primaire Immunodeficiencies, van Hagen PM & Dalm VA, Leerboek Reumatologie en Klinische Immunologie, 2013

13. Annex 2 Invited plenary lectures (meeting, dates)

20-06-2012 Skin and gastrointestinal infections in patients with immunodeficiencies

21-06-2012	National Meeting on Allergy and Clinical Immunology, Rotterdam, the Netherlands Immunotherapy: effects and side effects
19-05-2013	National meeting for ophthalmologists, Schiermonnikoog, the Netherlands Immunizations in immunocompromised travellers CISTM 2013, Maastricht, the Netherlands
28-05-2013	Fighting the fibroblast: the world's largest enemy? Dutch Continuum Dermatology, Utrecht, The Netherlands
13-06-2013	Interpretation of auto-immune diagnostic tests 2 nd national meeting on infectious diseases and immunity, Amersfoort, the Netherlands
27-06-2013	Treatment of non-infectious uveitis National meeting for ophthalmologists, Schiermonnikoog, the Netherlands
20-03-2014	Immunocompromised travellers to the tropics SNNDV 2014, Eindhoven, the Netherlands
11-10-2014	Immunodeficiencies in adults 50 th anniversary symposium of NVVI, Rotterdam, the Netherlands
14-03-2015	Clinical experience with HyQvia in patients with primary antibody deficiencies Polish national meeting on immunology, Serock, Poland
29-05-2015	Recognition of patients with immunodeficiencies 3rd national symposium on infections and immunity, Amersfoort, the Netherlands
27-06-2015	Octreotide in treatment of cystoid macular edema Dutch symposium for ophthalmologists, Schiermonnikoog, the Netherlands
05-10-2015	Sarcoidosis: basic and scientific aspects Meeting of the Dutch Society for Pediatric Rheumatology, Utrecht, the Netherlands
02-12-2015	Chronic granulomatous disease and neutropenia Hanoi Meeting, Hanoi, Vietnam
11-12-2015	Primary immunodeficiencies: clinical cases and treatment options French national meeting on internal medicine, Tours, France
14-04-2016	Novel treatment options in primary antibody deficiencies Slovakian national meeting on immunology, Martin, Slovakia
23-03-2017	Treatment of PID: now and in the future Symposium for Immunology, Paris, France

Appendix I : Training/Courses followed (accredited national and international meetings)

dr V.A.S.H. Dalm	99063482301
Target:	5 jaarlijkse herregistratieverplichting (200 punten in 5 jaren)
Status:	(Nog niet volledig)
Periode:	01-05-2011
	30-04-2016
Targetnorm:	200
Uw resultaat:	432
Waarvan gevalideerde punten	232
De gevalideerde punten zijn de punten die door aanbieders van nascholing en/of beroepsgroep/vereniging aan uw dossier zijn toegevoegd of goedgekeurd en op deze wijze al zijn gecontroleerd. Ook niet gevalideerde punten worden normaal in uw herregistratie meegenomen.	

Geaccrediteerde nascholing en overige deskundigheidsbevordering op het vakgebied van het eigen specialisme (meestal medisch inhoudelijk)

Dit betreft nascholing geaccrediteerd voor interne geneeskunde, MDL-geneeskunde, reumatologie, klinische geriatrie of allergologie.

Minimaal te behalen:	0
Totaal behaald:	377
Waarvan gevalideerde punten:	177

De gevalideerde punten zijn de punten die door aanbieders van nascholing en/of beroepsgroep/vereniging aan uw dossier zijn toegevoegd of goedgekeurd en op deze wijze al zijn gecontroleerd. Ook niet gevalideerde punten worden normaal in uw herregistratie meegenomen.

Geaccrediteerde algemene nascholing

Dit betreft algemene nascholing geaccrediteerd voor alle specialismen

Minimaal te behalen: 0
Totaal behaald: 40
Waarvan gevalideerde punten: 40

Datum	Categorie	Omschrijving	Punten	Status	Gevalideerd
31-05-2012	Algemene scholing cluster 2	Omgaan met lichamelijk onverklaarde klachten (ID Nummer: 97218)	16		Ja
12-05-2015	Algemene scholing cluster 1,2 en 3	Teach the Teacher II (ID Nummer: 183581)	12		Ja
10-03-2014	Algemene scholing cluster 1,2 en 3	Teach the Teacher I (ID Nummer: 148641)	12		Ja

De gevalideerde punten zijn de punten die door aanbieders van nascholing en/of beroepsgroep/vereniging aan uw dossier zijn toegevoegd of goedgekeurd en op deze wijze al zijn gecontroleerd. Ook niet gevalideerde punten worden normaal in uw herregistratie meegenomen.

Geaccrediteerde nascholing op het vakgebied van een ander specialisme

Dit betreft nascholingen buiten interne geneeskunde, MDL-geneeskunde, reumatologie, klinische geriatrie of allergologie. De pilot 'nascholing buiten het eigen vakgebied' is gestart op 1 mei 2013. November 2015 is besloten om dit voor onbepaalde tijd voort te zetten. Artsen mogen accreditatie-uren bij een geneeskundig specialisme buiten het eigen vakgebied halen (maximaal 50 per herregistratieperiode).

Minimaal te behalen: 0
Totaal behaald: 15
Waarvan gevalideerde punten: 15
